

We are Helena's only micro-distillery, proudly located in the former Montana Distillery and Bottling Warehouse at the north end of Helena's main, historic gulch. We are just downstream from the strike that turned a gulch into the mining camp that became a state capital. We ferment, distill, and bottle on site, and use only Montana grown grains in our grain-based spirits.

This Italian-style digestif incorporates a unique blend of herbs and spices including chamomile, myrrh, rhubarb, saffron, and mint. We developed this bright, bitter, and cool spirit to please and tantalize the refined palate. This balanced liqueur has a big, spicy, assertive character and a long, lingering finish.
